BUSINESS LEGAL EXPENSES

We will not look to write risks:

- which have been previously declined or insurer cancelled or have a history of non-disclosure / misrepresentation
- in some specific trade sectors, due to our own internal governance underwriting standards, reinsurance limitations or for reputational reasons.

We wouldn't expect this product to provide fair value to:

- businesses with in-house legal departments or solicitor firm retainers
- customers with ongoing legal disputes which would ordinarily be covered under this policy
- motor traders who require both commercial and road risks based legal expenses insurance.

Product value assessment

Our September 2023 assessment has concluded that our Commercial Legal Expenses Products, including its charging and distribution structure, is compatible with the needs, objectives and characteristics of the target market and provides fair value.

Our product value assessment is based on the premium we charge for the cover and the services we provide. In addition to the identified needs, characteristics (including vulnerabilities) and objectives of the target market we take a wide range of other factors into consideration, such as historical and expected claims frequencies, incurred and projected claims costs, plus scenario analysis along with customer feedback.

We also consider how the intended value of the product may be affected by its distribution with the conclusion of our product value assessment based upon our distribution strategy as set out below and that:

- the level of commission is in line with market proximate commission levels and is not being increased from what we have agreed with the placing distributor for the policy. Please refer to your commission schedule and traded commissions for your own distribution / value assessment purposes
- our product does not form part of a packaged offering
- no other additional charges or remuneration are being received in connection with the distribution of our product other than referenced above or received from us

- All and any parties in the distribution arrangement are able to confirm that their remuneration is consistent with their regulatory obligations.
- Where distributors operate on a fee-in-lieu (of commission) basis, such fees are expected to be proportionately lower than the equivalent commission would be for that same policy
- Administration fees of any other additional fees are only levied where commission income is not sufficient to cover any of those respective costs and is commensurate with the activities undertaken; and
- Ancillary products (including premium finance arranged by the distributor) are only being offered where requested by the customer and when appropriate to their demands and needs. The total charge to the customer for any ancillary products, and any directly related remuneration (whether commission or fee) is commensurate with the benefit/services provided and activities undertaken.

Distribution strategy

Our Business Legal Expenses product has been designed for distribution by brokers who hold commercial agency facilities with us. They must have the appropriate level of understanding about the risks and exposures faced by their customers in the operation of their business.
