

We provide tailored insurance and reinsurance solutions for all types of contract works placements including primary construction TPL owned and hired-in plant and machinery, as well as delay in start up/advanced loss of profits coverage.

Regardless of whether your construction customers work on large-scale engineering projects, new builds or renovations, an incident on-site can put their project at risk. With our construction solutions, we can help manage such setbacks and help get their projects back on track.

## Supporting businesses from the ground up

### Our product portfolio

Mid-corporate construction solutions

<u>Construction Select</u> - a range of bespoke covers for UK Mid-corporate construction with a turnover of up to £400m (annual turnover/risks attaching policies).

### Why Allianz for construction insurance?

We're flexible. Depending on the needs and risks of your customer, we have a range of cover options available, from construction all risks/erection all risks covers, to owned and hired-in plant and machinery.

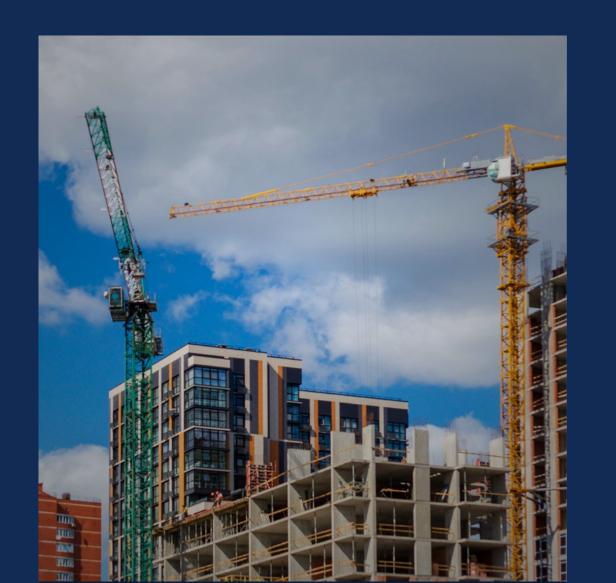

### Local expertise, global knowledge

We have dedicated construction underwriting experts throughout the UK, supported by global specialists across the Allianz Group for cross-border exposures.

### Single point of contact

A single point of contact helps to deliver quick and efficient results for a successful partnership.

# tailored propositions

### Why Allianz for construction insurance?

# specialists in our field

Construction projects often have a wide range of machinery and equipment which need to be regularly inspected to ensure a safe working environment.

Our expert team of engineer surveyors provide high quality, reliable inspection services throughout the country for work equipment, to help ensure health and safety, and compliance obligations are met as well as identifying faults or defects which could post a risk.

### Representing construction across a number of industry bodies

We share in-depth insights and knowledge to help provide you and your customers with solutions tailored to their business.

### **Outstanding claims service**

We'll support your customers every step of the way. Your customers will be in touch with construction specialists who'll handle their claim swiftly and competently.

CONSTRUCTION

- conventional non-coal fired power plants
- renewable energy including green hydrogen.

### Our underwriting criteria is heavily focused towards risks/clients that have:

- financial stability
- secure sites working to high quality standards
- a long and proven track record of successful project execution
- a proactive approach to health and safety
- robust contract conditions
- limited use of hired-in labour.

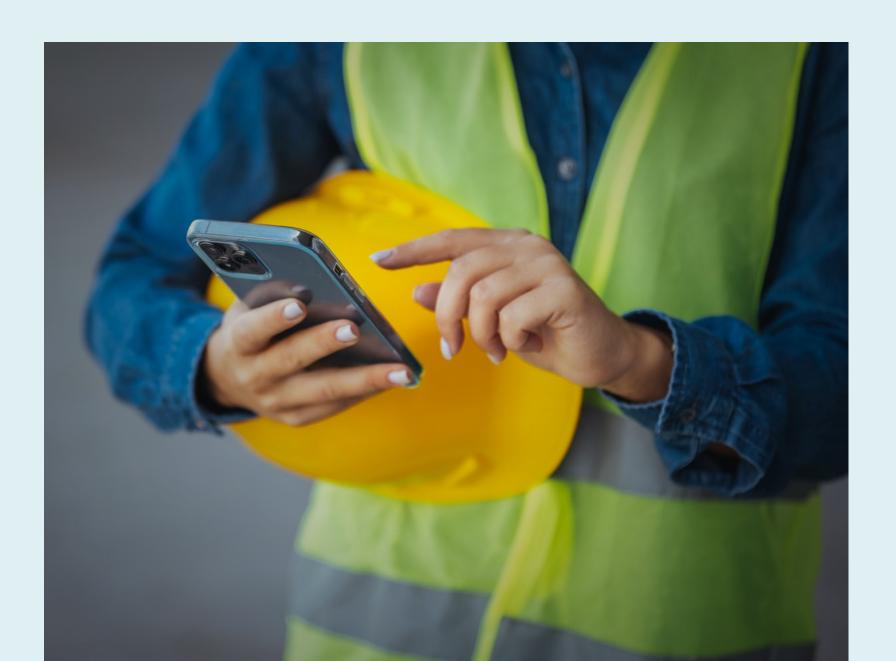

### Outstanding claims service

Our service is simple and fast, and if your customers need to make a claim, our dedicated claims handers will support them through every step.

### Personalised service for complex claims

For complex claims we'll provide a dedicated claims handler, who'll work closely with you and your customers to fully understand the nature of each claim and carry out proactive and thorough investigations on your behalf.

Allianz has built on its long history of achieving the Service Quality Marque this year, and brokers are now more positive about its claims service than at any point since 2018.

Ben Bolton, Managing Director, Gracechurch
